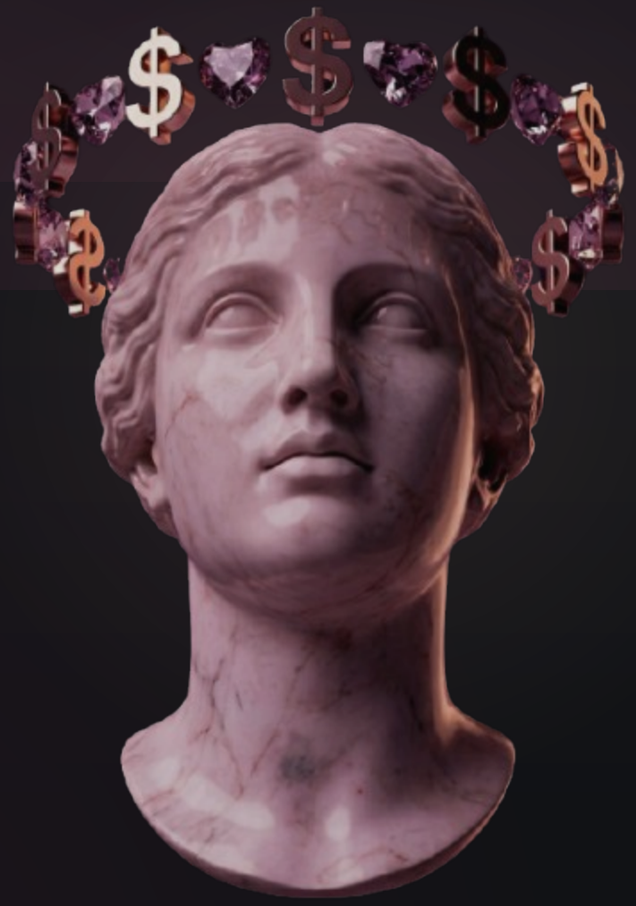
PREMIUM COURSE MATERIAL

MODULE 10

Overview

Advanced Training, NSFW Content, and Community Support

AI INFLUENCER METHOD



MODULE OVERVIEW

The course continues on Discord where you will access NSFW content creation modules, advanced strategies, live support, and the private community. This lesson tells you exactly how to access everything.

What You Will Learn

- Access the private Discord community
- Unlock NSFW content creation modules and advanced strategies
- Get live support and connect with other members

All materials are strictly protected under AI Influencer Method® rights

LESSON 1: COURSE COMPLETION CHECKLIST

Before moving to advanced content on Discord, verify that you have completed every step in Modules 1-9. Each item on this checklist is a building block. Skipping any of them creates a weak link that will break under pressure. Go through this list honestly — if anything is incomplete, go back and finish it before moving forward.

Module 1-2: Foundation

- Niche and persona selected based on market demand
- Name chosen and username available across all platforms
- Base model generated using Seedream 4.5 and Nano Banana 2
- Seed image selected and saved at full resolution
- Face consistency confirmed across multiple test generations
- Content library built: 30+ images sorted into categories

Module 3-4: Content Pipeline

- Reference image workflow tested and producing consistent results
- Prompt templates saved for each content category
- Editing workflow established (artifact fix, grain addition)
- Kling account set up with credits loaded
- Video generation tested in Standard and Professional modes
- At least 5 finished video clips ready for posting
- Video editing workflow established (CapCut or DaVinci Resolve)

Module 5: Device & Accounts

- Dedicated phone or device set up for persona

Module 6-7: Growth Systems

- Instagram warmup completed (21-28 days)
- TikTok warmup completed (9 days)
- Threads posting active and driving Instagram profile visits
- First Reels posted with trending audio
- Content posting schedule established and followed consistently
- Geo targeting signals active (English, US timing, US location tags)
- Audience demographics checked and healthy (60%+ English-speaking)

Module 8: Safety

- Daily safety habits established and non-negotiable
- Content backup system in place (local + cloud)
- Metrics monitoring routine active (daily reach, engagement, story views)
- Twitter/X shadowban status checked and green
- Instagram Account Status checked and clean
- Backup account warming up on separate device

Module 9: Monetization

- Link-in-bio page created (AllMyLinks or Linktree, max 2-3 links)

All materials are strictly protected under AI Influencer Method® rights

- SIM card and phone number acquired
- VPN configured and set to US location
- Instagram account created and profile configured
- Threads account linked to Instagram
- TikTok account created (no profile details yet — Day 1 rules)
- Telegram channel created and configured
- All accounts warming up according to protocol

- Subscription platform page set up with banner, bio, and initial content
- Pricing strategy set ($7-$15/month base, promotional discount active)
- Telegram channel producing content on schedule
- Automated welcome messages configured and tested
- Instagram highlight with link sticker created
- Funnel links activated (only after 3+ weeks of stable engagement)

COMPLETION STANDARD

If you cannot check off every item above, you are not ready for advanced content. Go back to the relevant module and finish it. The foundation must be solid before you scale into advanced strategies. Half-built foundations collapse under weight.

LESSON 2: YOUR FIRST 30 DAYS ACTION PLAN

This is the exact sequence of actions for your first 30 days, organized week by week. Follow this plan in order. Do not skip ahead. Each week builds on the previous one. Print this out and check items off as you complete them.

Week 1: Build the Foundation

- Day 1-2: Choose niche, name, and persona (Module 1-2)
- Day 2-3: Generate base model using Seedream 4.5 and Nano Banana 2
- Day 3-4: Test face consistency with reference workflow
- Day 4-5: Begin building content library (target 15+ images)
- Day 5-6: Generate first Kling video clips (3-5 clips)
- Day 6-7: Set up phone, SIM card, VPN, and all apps
- Day 7: Create Instagram account and configure profile

WEEK 1 GOAL

By end of Week 1: Base model locked, 15+ images generated, 3+ video clips created, Instagram account created. You should be ready to begin warmup.

Week 2: Content & Warmup Begins

- Day 8-9: Continue building content library (target 30+ total images)
- Day 8: Create TikTok account (follow Day 1 rules — empty, no details)
- Day 9-14: Instagram warmup — scroll, like, follow, watch (Module 5)
- Day 9-14: TikTok warmup — Day 1-7 protocol from Module 5
- Day 10: Create Telegram channel and prepare 5-10 initial posts
- Day 11: Create link-in-bio page (AllMyLinks or Linktree)

Week 3: Growth Phase Begins

- Day 15-16: First Instagram carousel posts (2-3 SFW, face-focused)
- Day 15-21: Continue Instagram warmup engagement daily
- Day 16: TikTok warmup complete — begin posting (1-2 per day)
- Day 17: Start Threads posting (1-2 posts per day, text-based)
- Day 18-19: First Instagram Stories (daily, casual, lifestyle)
- Day 20: Scale Threads to 3-4 posts per day
- Day 21: Instagram warmup minimum complete — evaluate metrics
- Day 21: Begin Twitter/X warmup if bandwidth allows

WEEK 3 GOAL

By end of Week 3: Content flowing on Instagram and TikTok. Threads active and driving profile visits. Growth signals visible in Instagram Insights. Ready to activate funnel links.

Week 4: Monetization Activation

- Day 22: Add link in bio on Instagram (only if engagement is stable)
- Day 22: Create Instagram highlight with link sticker
- Day 22-28: Begin posting Instagram Reels daily (one per day minimum)
- Day 23: Activate Telegram posting schedule (2-3 posts per day)
- Day 24: Configure automated welcome messages
- Day 25-28: Scale posting cadence across all platforms

All materials are strictly protected under AI Influencer Method® rights

• Day 12-14: Set up subscription platform page with banner, bio, 5-10 posts

• Day 14: Generate additional video clips for posting backlog

WEEK 2 GOAL

By end of Week 2: 30+ images in library, all accounts created, warmup in progress on all platforms, subscription page ready with content, Telegram channel prepared.

• Day 28: Review all metrics — reach, engagement, profile visits, audience demographics

• Day 28-30: First subscriber conversions should begin arriving

WEEK 4 GOAL

By end of Week 4: Full funnel active. Reels posting daily. Telegram funnel warming followers. Link in bio live. First subscriber conversions beginning. System is operational.

30-day action plan timeline: 4-week horizontal timeline with daily milestones. Color-coded by activity type: Foundation (blue), Warmup (yellow), Growth (green), Monetization (orange). Key milestones called out with star icons.

AFTER DAY 30

Day 30 is not the finish line — it is the starting line. Your system is now operational. From here, your daily job is: generate content, post consistently, engage with your audience, monitor metrics, and optimize what works. The real growth happens in Months 2-6 as your systems compound. Keep going.

LESSON 3: WHAT COMES NEXT ON DISCORD

Congratulations on completing Modules 1-9 and your first 30 days. You now have the complete foundation: model creation, content pipeline, platform growth, account safety, and monetization systems. Everything you need to launch and run a profitable AI influencer business is in your hands.

Module 10 continues on Discord. The advanced training covers content and strategies that go beyond what can be delivered in a static PDF format. The Discord community is where the real-time learning happens.

What You Will Find on Discord

- NSFW image and video creation techniques and workflows
- Advanced content strategies that push beyond SFW
- Chat systems and revenue optimization strategies
- Live Q&A sessions and real-time support from experienced operators
- Community of operators sharing strategies, results, and lessons learned
- Template libraries, prompt databases, and shared resources
- Direct feedback on your pages from experienced operators
- Platform update alerts when rules or algorithms change

Why Discord?

Advanced strategies and NSFW content require a platform that allows open discussion without content restrictions. Discord provides the privacy, flexibility, and real-time interaction that this material demands.

This industry evolves constantly. Platform rules change, new AI tools launch, and strategies that work today may need adjustment tomorrow. Discord allows the community to stay current in a way that static PDFs cannot. When Instagram changes its algorithm or a new AI video tool launches, the Discord community adapts in real time.

How to Get the Most from Discord

- Introduce yourself and share your current progress
- Ask specific questions — vague questions get vague answers
- Share your results (wins and failures) — the community learns from both
- Review other operators' pages and offer feedback
- Stay active — the most successful operators are the most engaged in the community

All materials are strictly protected under AI Influencer Method® rights

• Check the announcements channel weekly for platform updates and strategy changes

HOW TO JOIN

Access to the Discord server is included with your course purchase. Check your purchase confirmation email for the invite link. If you do not have it, reach out to support.

FINAL RULE

Make sure you have completed Modules 1-9 and have your first page fully operational before jumping into advanced content. The fundamentals must be solid before you scale. Build the foundation first. Everything advanced is built on top of what you learned here.
