ACCESS CONTROL

Access must be earned gradually. New chatters should never receive full account access immediately. This reduces damage if a hire turns out to be malicious or incompetent.

- → First stage: Read only access, observation only
- → Second stage: Limited supervised chatting, no financial controls
- → Final stage: Full chatting access after trust is built

END SUMMARY

- Chatters are operators — their performance directly affects profit and risk
- Hiring correctly increases stability and revenue
- Hiring poorly increases loss and exposure
- Live interviews, live English testing, and controlled access are not optional
- Most losses come from rushing hires, skipping tests, and trusting without verification
- Payment must be on time — delayed pay creates risk
- Structure separates scalable operations from chaos
- Treat chatters with respect — they control your revenue
