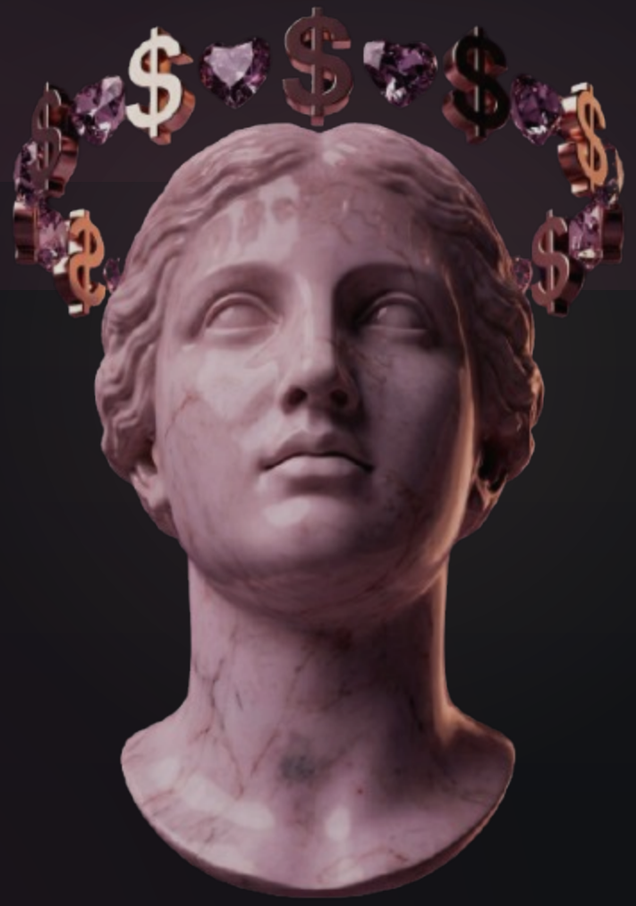
LESSON 1

Funnel Psychology & Overview

Learn How to Turn Social Media Followers into Paying Fans

AI INFLUENCER METHOD



LESSON 1: FUNNEL PSYCHOLOGY & OVERVIEW

Followers are not customers. They are potential customers sitting at the top of a funnel. The funnel is the system that takes someone from 'I saw a Reel' to 'I just paid $15/month for a subscription.' Without this system, followers are just a number on your profile.

The Conversion Funnel

- → Attention — They see your content (Reels, Threads, TikTok)
- → Curiosity — They visit your profile ('Who is this girl?')
- → Trust — They follow and watch your content over time
- → Desire — They want more than what's free
- → Action — They click the link in bio and subscribe

Every step of this funnel must be intentional. If any step is weak, the whole thing leaks. Most people lose fans between Trust and Desire because they try to sell too early.

Funnel Psychology

- People don't pay for content — they pay for connection
- The feeling of being 'close' to someone drives subscriptions
- Free content must tease but never fully satisfy
- The gap between free and paid must feel exciting, not frustrating
- Emotional framing always outperforms hard selling

CORE PRINCIPLE

You are not selling content. You are selling the feeling of a relationship. Every decision you make should build emotional proximity, not advertise a product.
