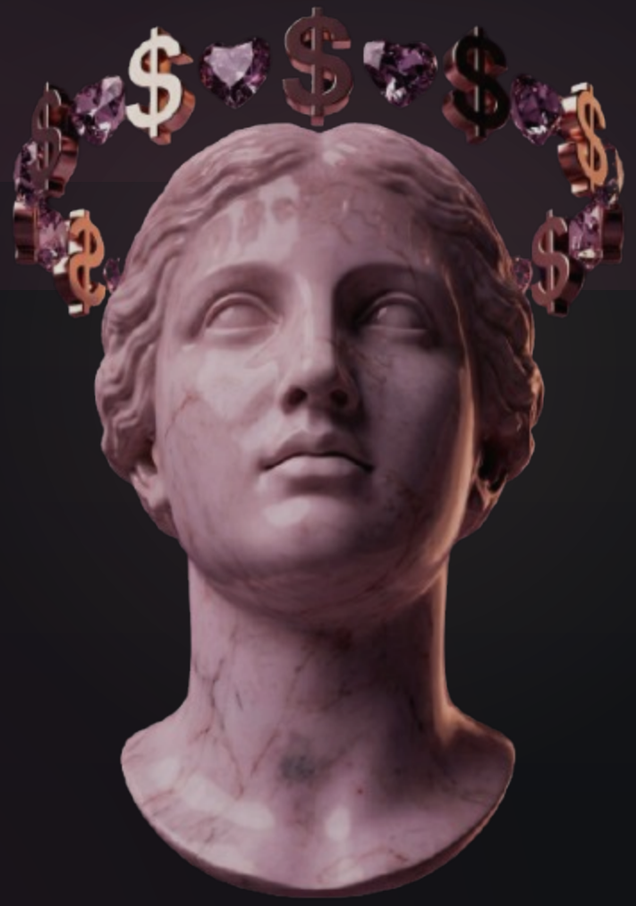
PREMIUM COURSE MATERIAL

MODULE 2

Overview

Learn How to Generate Your Base Model Realistically and Efficiently

AI INFLUENCER METHOD



MODULE OVERVIEW

In this module you will create your AI influencer from scratch. You will choose a niche, define a persona, generate your base model, lock in face and style consistency, and build a full content library ready for posting.

What You Will Learn

- Choose a profitable niche and define your persona's identity
- Generate a realistic base model using AI image tools
- Ensure face and style consistency across all generated images
- Build a content library with enough material to start posting

Lessons in This Module

- → Lesson 1: Choosing Your Niche & Persona
- → Lesson 2: Generating Your Base Model
- → Lesson 3: Ensuring Face & Style Consistency
- → Lesson 4: Building Your Content Library
