MODULE 8
LESSON 3

What to Do If You Get Banned

Learn How to Protect Your Social Media Accounts from Bans and What to Do if It Happens

AI INFLUENCER METHOD

LESSON 3: WHAT TO DO IF YOU GET BANNED

Despite best practices, bans happen. They are part of operating in this space. What separates winners from quitters is how fast and smart you respond. This lesson covers exact steps for each scenario.

If You Get Shadowbanned

- STOP posting immediately — do not try to 'post through it'
- Reduce all activity to passive scrolling only for 48-72 hours
- Remove any recently posted content that may have triggered it
- Check if you violated any content guidelines recently
- After 48-72 hours, resume posting slowly (50% of normal frequency)
- Monitor reach metrics — shadowbans typically lift in 7-14 days

If You Get Suspended

- Submit an appeal immediately through the platform's process
- Be polite, professional, and brief in your appeal
- Do not create a new account on the same device/IP while suspended
- Wait for the appeal — most respond within 24-72 hours
- If appeal fails, wait 30 days and try again with new evidence

If You Get Permanently Banned

- Accept the loss — do not waste time on repeated appeals
- Analyze what went wrong so you do not repeat it
- Start fresh with a new persona (different look, name, niche)
- Use a completely new device, phone number, and IP address
- Do NOT try to recreate the same persona — platforms detect this
- Follow the warmup protocol from Module 5 with extra caution

RECOVERY TIMELINE

Shadowban: 7-14 days of reduced activity.
Temporary suspension: 24-72 hours for appeal.
Permanent ban: Start fresh — full warmup (21-28 days) on new device.

MINDSET

A ban is not the end. It is a setback. If your system works, you can rebuild. The knowledge and content pipeline you have built does not disappear because one account does. Rebuild smarter.
