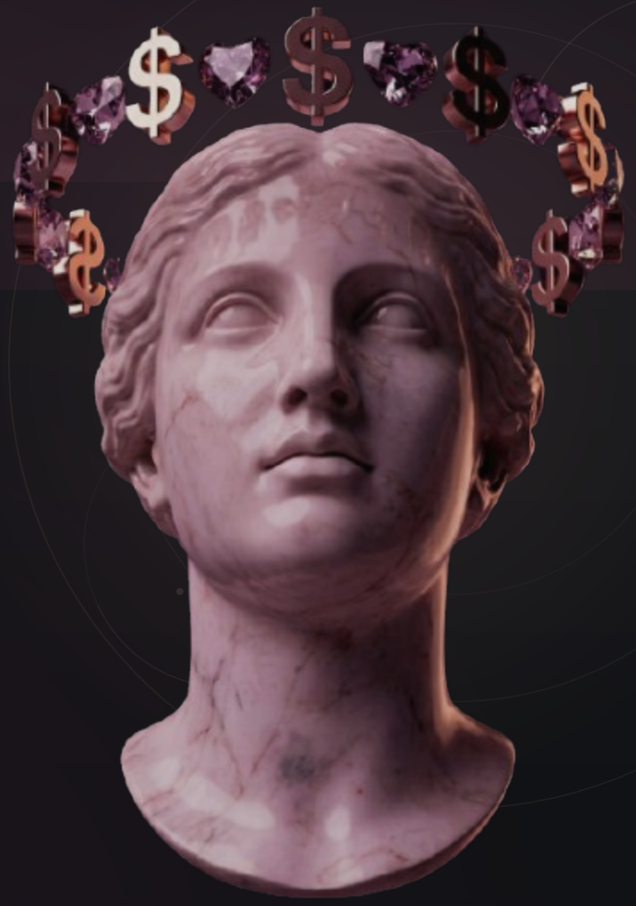
MODULE 6
LESSON 2

Threads Growth Strategy

Learn the essentials of threads growth strategy

AI INFLUENCER METHOD | OUR DISCORD



LESSON 2: THREADS GROWTH STRATEGY

Threads is not a separate platform — it is a tool that feeds directly into your Instagram growth. Threads gives new pages reach without history. You use it to manufacture demand and curiosity, then push that attention to your Instagram profile. The fan should think: 'Who is this girl?' Not 'She is selling something.'

> **CRITICAL WARNING: THREADS AND INSTAGRAM ARE LINKED**
>
> Your Threads and Instagram accounts are connected. Spamming on Threads, getting reported on Threads, or violating community guidelines on Threads can directly affect your Instagram account. A Threads ban can trigger an Instagram flag. Treat Threads with the same safety discipline you apply to Instagram — it is not a throwaway platform.

Platform Role: Threads

- Trigger comments and arguments
- Start conversations that make people curious
- Test narratives and post angles
- Send people to your IG profile organically
- Threads posts should make someone think: 'Who is this girl?'

Reply Hijacking Strategy

Reply hijacking is how you steal attention from existing conversations and redirect it to your profile.

- Find Threads posted 2-4 hours ago that are gaining traction
- Reply with text + selfie attached
- Ask follow-up questions to keep the thread going
- Be slightly unsure — keep them talking and reassuring you
- You are making people reassure her, argue, and explain things to her
- You are always asking for validation or opinion

GOOD EXAMPLE:

Reply: 'Really? I always thought it made me look weird'
This keeps the conversation going and makes people click your profile.

BAD EXAMPLE:

Reply: 'aww ty'
Conversation killer. No one clicks through. Zero value.

Phase 1: How to Post & Reply

Goal: Force comments and profile visits. Start after warmup, or in the last 7 days of warmup if engagement is stable.

Posting Rules

- 1 post per day to start
- Always text-based
- Optional photo (cute, casual, not polished)
- Light comparison or validation bait
- Posts that trigger comments get pushed to more people
- Use your AI model's persona voice — casual, human, not corporate

Phase 2: Scaling & Testing

Phase 2 starts when posts get comments consistently, profile visits increase, and IG followers rise without Reels.

- Increase to 3-4 posts per day
- Same formats, same angles that worked
- Slight wording changes only — do NOT rotate just to rotate
- If something works: repeat it with slightly changed phrasing and context
- If something dies: drop it and move on immediately
- Scale to 5-8 posts per day as engagement grows

Content Expansion (Still SFW)

- More confident tone as following grows
- Slightly flirtier text is allowed
- Glow-up narratives work well
- Every Threads post that pops sends people to your IG profile

Post Angles That Work

- 'Does anyone even like ___ girls?'
- 'Am I wrong for wanting ___?'
- 'My parents hate ___ about me'
- 'Be honest, does this look bad?'
- Hot takes and opinions (generates replies)
- Relatable daily moments
- Questions that spark conversation
- Slightly controversial (not offensive) statements
- Personal stories that feel authentic

GOOD EXAMPLE:

Thread post: 'accidentally made eye contact with someone at the gym and now we're married i guess'
Relatable, funny, conversation-starting.

BAD EXAMPLE:

Thread post: 'Check out my page for exclusive content! Link in bio'
Sales pitch. No one engages. Algorithm buries it.

Real-Time Rebrands (Allowed vs Not Allowed)

Allowed Changes

- Hair color change
- Accessories (glasses, eyepatch, jewelry)
- Story-based changes (glow-up narrative)

GOOD EXAMPLE:

Same model, new hair color with a 'just dyed my hair' post.
Feels natural and creates engagement.

NOT Allowed

- New face entirely
- New body type
- Completely different model

BAD EXAMPLE:

Switching to a completely different AI model mid-growth.
Destroys all trust and consistency built.

CONSISTENCY RULE

Small visual changes create engagement and feel natural. Complete model swaps destroy everything you have built. The persona must always be recognizably the same person.

END SUMMARY

- Instagram is the primary platform — Reels drive discovery, Stories drive engagement, never upload raw AI images
- Threads manufactures demand that feeds directly into Instagram — use validation bait and reply hijacking
- Reddit is a niche amplifier — 7-day warmup, karma farming, blend in before posting, always leave desire unfinished
- TikTok is secondary reach — 9-day warmup, only safe content, carousel format is safest, max 3 accounts per device
- Twitter/X grows through replies under big posts — target affluent men 40+, check shadowban status regularly
- Coordinate content across platforms — same persona, different formats, never same image same day
- Instagram always gets your best content first — all other platforms recycle with delays
- Every platform follows the content progression ladder: curiosity on social, desire building, Fanvue fulfillment
