LESSON 1: INSTAGRAM GROWTH STRATEGY

Instagram is your primary traffic source. Everything else feeds into it or supports it. After warmup is complete (Module 5), you are ready to launch your real growth phase. Instagram does not push new accounts because content is 'good'. It pushes content when behavior looks human, consistent, and socially validated. This is where your page goes from looking human to actually growing.

> **2025-2026 INSTAGRAM REALITY CHECK**
>
> Meta deployed LLaMA-based AI moderation in 2025 that is hyper-sensitive to AI-generated content. This caused a mass ban wave (May-August 2025) affecting many AI influencer accounts. Instagram now actively flags and deranks AI-generated content. This means: your content must pass as real (the grain trick from Module 3 is critical), your accounts WILL get flagged eventually (always have backup accounts warming up), and IMEI/device bans can affect all accounts linked to that phone. Be prepared, not surprised.

Instagram rewards pages that already look wanted. Threads manufactures demand first, then Instagram amplifies it. You are not growing on two separate platforms — you are running one system with two tools.

Platform Role: Instagram

- Visually lock the persona
- Build trust through consistent visual identity
- Convert attention into clicks and money
- Instagram posts should make someone think: 'I've seen her before — she's real.'

Instagram Content Execution

- Instagram gets your BEST content first — always
- Never post the same image on Instagram and another platform same day
- Vary content: selfies, lifestyle, casual, glam — not all one type
- Stories should feel raw and 'in the moment' even if AI-generated
- Carousel posts: 3-5 images, first image is the hook
- Never upload raw AI images — use Photoshop or Photopea
- Add approximately 2% grain to images for realism
- Stories: daily if possible, lifestyle and personality, no links before 3 weeks

Reels Launch Process

- Start Reels only AFTER warmup is fully complete AND Threads is active
- Comments should already be flowing from Threads before first Reel
- A viral Thread is a boost, not a requirement — but engagement must be stable
- First Reels must be high-quality, SFW, and scroll-stopping
- Parent or lifestyle content works well for first Reels
- Post 1 quality Reel per day — more only if quality stays high
- Use trending sounds — check the Reels audio library daily

Reels Strategy

- Quality over quantity — always
- If first Reel goes viral, replicate that exact format
- Use trial Reels to test risky or experimental ideas
- Trial Reels: reuse clips, change text and order, fully experimental
- If Reels flop: keep posting, change format, do NOT stop

All materials are strictly protected under AI Influencer Method® rights

- Keep captions short and personality-driven, not salesy

Example Instagram grid layout showing content variety and posting pattern

GROWTH TRIGGER

The algorithm pushes Reels when early engagement is strong. Post when your audience is online (check Insights). The first 30 minutes determine if the Reel gets distributed or dies. Stay active and reply to comments immediately after posting.

Content Hierarchy

- → Reels — Primary discovery tool (reach new people)
- → Stories — Daily engagement (keep existing followers active)
- → Carousels — Profile building (make your grid look real)
- → Feed posts — Support content (fills out your page)

Geo Targeting & Distribution Control

Target Audiences

- English-speaking countries — USA priority
- EU acceptable as secondary
- Use USA city locations in posts
- Use American music and trends
- Flag emojis in moderation

GEO SIGNALING

Signal your location through content choices: American cities in location tags, American music in Reels, English-language engagement. The algorithm learns your target audience from your behavior.

Geo Blocking (LAST RESORT)

Geo blocking is not a default strategy. It is an emergency correction tool used only when Instagram repeatedly pushes content to the wrong audience.

- Use Instagram native age restriction by country
- Go to Settings > Business Tools > Minimum Age
- Set highest age for countries you want to limit
- Do not use on brand-new accounts
- Continue posting USA-targeted content while active

WARNING

Only use geo blocking after your account is established and you have confirmed wrong-audience distribution through Insights. Using it too early can hurt reach.

LESSON 2: THREADS GROWTH STRATEGY

Threads is not a separate platform — it is a tool that feeds directly into your Instagram growth. Threads gives new pages reach without history. You use it to manufacture demand and curiosity, then push that attention to your Instagram profile. The fan should think: 'Who is this girl?' Not 'She is selling something.'

> **CRITICAL WARNING: THREADS AND INSTAGRAM ARE LINKED**
>
> Your Threads and Instagram accounts are connected. Spamming on Threads, getting reported on Threads, or violating community guidelines on Threads can directly affect your Instagram account. A Threads ban can trigger an Instagram flag. Treat Threads with the same safety discipline you apply to Instagram — it is not a throwaway platform.

Platform Role: Threads

- Trigger comments and arguments
- Start conversations that make people curious
- Test narratives and post angles
- Send people to your IG profile organically
- Threads posts should make someone think: 'Who is this girl?'

Reply Hijacking Strategy

Reply hijacking is how you steal attention from existing conversations and redirect it to your profile.

- Find Threads posted 2-4 hours ago that are gaining traction
- Reply with text + selfie attached
- Ask follow-up questions to keep the thread going
- Be slightly unsure — keep them talking and reassuring you
- You are making people reassure her, argue, and explain things to her
- You are always asking for validation or opinion

> **GOOD EXAMPLE:**
>
> *Reply: 'Really? I always thought it made me look weird'*
> *This keeps the conversation going and makes people click your profile.*

> **BAD EXAMPLE:**
>
> *Reply: 'aww ty'*
> *Conversation killer. No one clicks through. Zero value.*

Phase 1: How to Post & Reply

Goal: Force comments and profile visits. Start after warmup, or in the last 7 days of warmup if engagement is stable.

Phase 2: Scaling & Testing

Phase 2 starts when posts get comments consistently, profile visits increase, and IG followers rise without Reels.

- Increase to 3-4 posts per day
- Same formats, same angles that worked

All materials are strictly protected under AI Influencer Method® rights

Posting Rules

- 1 post per day to start
- Always text-based
- Optional photo (cute, casual, not polished)
- Light comparison or validation bait
- Posts that trigger comments get pushed to more people
- Use your AI model's persona voice — casual, human, not corporate

- Slight wording changes only — do NOT rotate just to rotate
- If something works: repeat it with slightly changed phrasing and context
- If something dies: drop it and move on immediately
- Scale to 5-8 posts per day as engagement grows

Content Expansion (Still SFW)

- More confident tone as following grows
- Slightly flirtier text is allowed
- Glow-up narratives work well
- Every Threads post that pops sends people to your IG profile

> **IMAGE PLACEHOLDER**
>
> Example Threads posts that drove Instagram profile visits

All materials are strictly protected under AI Influencer Method® rights

Post Angles That Work

- 'Does anyone even like ___ girls?'
- 'Am I wrong for wanting ___?'
- 'My parents hate ___ about me'
- 'Be honest, does this look bad?'
- Hot takes and opinions (generates replies)
- Relatable daily moments
- Questions that spark conversation
- Slightly controversial (not offensive) statements
- Personal stories that feel authentic

GOOD EXAMPLE:

Thread post: 'accidentally made eye contact with someone at the gym and now we're married i guess'
Relatable, funny, conversation-starting.

BAD EXAMPLE:

Thread post: 'Check out my page for exclusive content! Link in bio'
Sales pitch. No one engages. Algorithm buries it.

Real-Time Rebrands (Allowed vs Not Allowed)

Allowed Changes

- Hair color change
- Accessories (glasses, eyepatch, jewelry)
- Story-based changes (glow-up narrative)

GOOD EXAMPLE:

Same model, new hair color with a 'just dyed my hair' post.
Feels natural and creates engagement.

All materials are strictly protected under AI Influencer Method® rights

NOT Allowed

- New face entirely
- New body type
- Completely different model

BAD EXAMPLE:

Switching to a completely different AI model mid-growth.
Destroys all trust and consistency built.

CONSISTENCY RULE

Small visual changes create engagement and feel natural. Complete model swaps destroy everything you have built. The persona must always be recognizably the same person.

LESSON 3: REDDIT GROWTH STRATEGY

Reddit is not a main platform. It is a niche amplifier. Reddit is slow, strict, and heavily moderated. Most subreddits do not allow promotion and remove content quickly. However, Reddit can be extremely powerful when a post goes viral inside the correct niche subreddit. One viral post inside the right subreddit can generate large traffic in a short time.

> **REDDIT REALITY CHECK (2025-2026)**
>
> Reddit has become extremely hostile to promotional accounts. Operators running 5-15 promo accounts report daily bans even with residential proxies, manual warmup, and isolated environments. New accounts get flagged and banned within 1-2 days. Reddit's Contributor Quality Score (CQS) now heavily favors genuine engagement — comments are valued far more than posts. Expect to lose accounts regularly. Budget for it. Always have new accounts warming up. This is a war of attrition, not a set-and-forget strategy.

Reddit does not reward creators. It rewards relevance inside specific communities. A good Reddit account does not look like a model account. It looks like a normal user who belongs to a niche. The fan should feel like they discovered you inside their own community, not that you came to advertise.

Profile Setup: First Impression

The username and profile are the first trust signals. The profile answers one question for moderators and users: Is this a real person.

Username Rules

- No sexual words
- No random numbers
- No spam patterns
- Must look human and natural
- Cute or quirky names work best

> **GOOD EXAMPLE:**
>
> *Username: sarah_thinksalot*
> *Profile pic: casual selfie, soft smile*

Subreddit Targeting

The goal is not large subreddits. The goal is correct subreddits. Each model must match the subreddit style. Never post off-theme.

- Read each subreddit's rules before posting anything
- Start with SFW subreddits only
- Target subreddits with 50k-500k members (sweet spot for visibility)
- Join 10-15 relevant subreddits
- Match the model's aesthetic to the subreddit niche

Example Subreddit Categories

- General: r/18_22, r/selfietits
- Cute / Innocent Style: r/cutecore, r/cutevsslut
- Goth Girl: r/gothwhoress, r/gothgirlsgw, r/altgirls

> **KEY RULE**
>
> Match the model to the subreddit. Never post off-theme. A goth model does not belong in a cute subreddit. The account should slowly build trust inside specific communities.

All materials are strictly protected under AI Influencer Method® rights

BAD EXAMPLE:

Username: hotmodel_xxx_99

Profile pic: explicit pose, heavy filter

IMAGE PLACEHOLDER

Example subreddit list organized by niche type

Profile Picture Rules

- Should be neutral or soft — never explicit
- Use your AI model's face as avatar
- Before posting NSFW content, the profile must be marked as NSFW in Reddit settings

Bio Rules

The bio should sound casual and normal. No links or promotions in the beginning.

GOOD EXAMPLE:

Bio: 'Just here for memes and random thoughts'

BAD EXAMPLE:

Bio: 'Model. Content. Link below.'

Reddit Warmup: Day-by-Day Protocol

Warmup is mandatory on Reddit. Before posting NSFW or traffic content, the account must have comment karma, post karma, and posting history. If the account moves too fast, it dies.

Day 1

- Log in and do nothing

Day 2

- Scroll for 15 to 20 minutes
- No posts
- No comments

Day 5

- Scroll 30 to 40 minutes
- Upvote 8 to 10 posts
- Write 2 comments
- Post 1 safe-for-work post

Days 6 and 7

- Scroll 30 to 40 minutes
- Upvote 8 to 10 posts
- Write 2 comments
- Post 2 to 3 safe posts

All materials are strictly protected under AI Influencer Method® rights

REQUIRED BEFORE NSFW POSTING

You must have all three before any NSFW content:
- Comment karma
- Post karma
- Posting history

Skipping any of these gets you banned.

Day 3

- Scroll 25 to 30 minutes
- Upvote 2 to 3 posts
- Join 2 subreddits

Day 4

- Scroll 30 to 40 minutes
- Upvote 5 to 7 posts
- Write 1 comment maximum
- No posts

Karma Farming Methods

- Commenting in anime subreddits
- Posting questions in hobby subreddits
- Posting AI animal images in animal subreddits and asking for names
- Posting memes in meme subreddits
- Posting casual questions and opinions
- Get creative — act human, blend in

Comments: The Main Legitimacy Signal

Comments Should Be

- Relevant to the post
- Short and natural
- Human-sounding

Never Comment Like This

All materials are strictly protected under AI Influencer Method® rights

- Non-promotional

GOOD EXAMPLE:

that's funny
i agree with this
didn't think of it like that

BAD EXAMPLE:

check my profile
link in bio
dm me

Comments should look like real reactions, not strategy. One promotional comment can get your entire account flagged. Reddit's Contributor Quality Score (CQS) tracks your comment patterns — comments are valued far more than posts for building account legitimacy. Avoid ChatGPT-sounding text and emoji-heavy responses. Write like a real person who belongs in the community.

Posting Phase & Content Progression

Posting Rules After Warmup

- Post 1-2 images per subreddit per week maximum
- Titles should be casual, not promotional: 'felt cute today' not 'check me out'
- Respond to every comment on your posts
- Rotate subreddits — don't spam the same one
- NSFW content only after history, karma, and subreddit rules are understood
- Profile must be marked NSFW in settings before NSFW posts
- Link placement starts only after around 1k followers
- Verification using r/letsverify is optional — bonus, not requirement

Early Post Content

- Memes and questions
- Text posts and casual photos
- Normal discussions
- No links, promotions, sexual content, or repeated titles

Content Progression Ladder

Content must follow a ladder. Each layer must leave something unfinished so the next layer becomes attractive.

- → Neutral content builds trust
- → Soft content builds curiosity
- → Fanvue fulfills fantasy

> **CRITICAL RULE**
> If Reddit gives satisfaction, the user will not click out. Always leave desire unfinished. The purpose is to make them curious enough to find your link.

Visual Consistency

- All images must look like the same person
- Backgrounds should be similar across posts
- Lighting should be similar
- Style should be similar
- Sudden changes reduce realism — realism creates trust — trust creates clicks

All materials are strictly protected under AI Influencer Method® rights

REDDIT GOLDEN RULE

Reddit users hate self-promotion. If your account looks like it exists only to post images, you will be downvoted and banned. Blend in first, post second. One viral post in the right subreddit can outperform weeks of posting.

LESSON 4: TIKTOK GROWTH STRATEGY

TikTok is a secondary traffic source. Instagram remains the main platform. TikTok converts worse than Instagram — estimated 5 to 10 times worse in CVR. Its value is not volume. Its value is extra reach when combined with other organic marketing. TikTok should support the system, not replace it.

TikTok Exists To

- Recycle content from Instagram
- Generate extra views and attention
- Capture additional audience that is not on Instagram
- Add approximately 20% more subscribers to overall funnel

What TikTok Rewards

- Accounts that look human and act slowly
- Content that stays within platform comfort zones
- Consistent posting schedule over time
- High watch time and completion rate on videos

> **SAFETY RULE**
>
> If content feels risky, do not post it on TikTok. Safe posting beats frequent posting. One strike on TikTok can shadow your account for weeks.

Platform Risk: TikTok vs Instagram

TikTok is stricter than Instagram. Content moderation is heavier. Accounts are reviewed faster. Shadow limits happen more easily. What works on Instagram can get limited on TikTok.

> **CORE RULE**
>
> TikTok is leverage. Not focus. Not dependency. Do not overinvest time. Instagram drives the system — TikTok supports it.

Account Setup: First Signals

New TikTok accounts must start empty. Early behavior determines trust. Follow this exactly.

When Creating a New Account

- Do not add username
- Do not add bio
- Do not add profile picture
- Close the app for 20 minutes after creation
- Then browse FYP for 30-60 minutes

Multi-Account Safety

- Maximum 3 accounts per device
- Linked accounts increase ban risk
- Each account must have unique username, profile picture, and bio
- Never open the same link on multiple accounts

All materials are strictly protected under AI Influencer Method® rights

- No likes, no posts on Day 1

> **CRITICAL RULE**
> Never open the same link on multiple TikTok accounts. This links them together and increases ban risk for all accounts.

Profile Setup (Day 5)

- Username: human, simple, no spam patterns
- Profile picture: unique per account, non-explicit
- Bio: typed manually, never copy-pasted, neutral and casual
- Each account must look like a different person

TikTok Warmup: Day-by-Day Protocol

Day 1

- Create the account with no username, bio, or picture
- Close app for 20 minutes
- Browse FYP 30-60 minutes
- No likes, no posts

Day 2

- Browse FYP 30 minutes
- No follows, no posts, no likes

Day 3

- Browse FYP 30 minutes
- Like 3-5 videos
- No follows, no posts

Day 4

Day 5

- Add profile picture, bio, and username manually
- Browse FYP 30-40 minutes
- Like 8-10 videos
- Write 2 comments
- No posts yet

Day 6

- Browse FYP 30-40 minutes
- Like 8-10 videos
- Write 2 comments
- No posting

Day 7

- Browse FYP 30-40 minutes
- Like 10 videos
- Write 3 comments
- Post your first TikTok

Days 8-9

All materials are strictly protected under AI Influencer Method® rights

- Browse FYP 30-40 minutes
- Like 5-7 videos
- Write 1 comment
- No follows, no posts

- Browse FYP 30-40 minutes
- Like 8-10 videos
- Write 2-3 comments
- Post second and third TikToks
- Activate analytics

> **AFTER DAY 9**
>
> Treat the account like a regular one. Warmup is complete. Begin normal posting schedule.

Content Strategy & Formats

Content Types

- Carousel/photo format is the safest content type
- Short video clips (3-10 seconds) with trending sounds
- Face-focused content outperforms everything else
- Recycle your best Instagram content (delayed by 2-3 days minimum)
- Only post very safe content — TikTok moderation is stricter

Why Carousels Work

Carousels are the safest and often most effective content format on TikTok for AI personas. They avoid the AI detection risks of video while still getting strong algorithmic reach.

- Easy to consume — users swipe through naturally
- Significantly lower ban risk than video content
- Often get strong reach — TikTok's algorithm treats them favorably
- Best for new accounts and risk-averse posting
- Less chance of AI detection compared to AI-generated video
- Can be repurposed directly from your Instagram carousel content

Carousel Ideas

- Pictures of your model in different settings

Daily Behavior (Trust Signals)

- Browse FYP at least 20 minutes per day
- Like content naturally
- Comment on other creators' posts
- Follow back 5-10 followers per day
- Before posting: engage for 10 minutes
- After posting: engage 10 minutes, then close app for 30 minutes
- Captions must be typed manually — never copy-paste

Posting Rules After Warmup

- Do not spam — wait 4+ hours between posts
- Do not batch upload multiple posts
- Do not post risky content
- Safe posting beats frequent posting
- 1-2 posts per day is the target

Scale Strategy

- Open up to 3 TikTok accounts

All materials are strictly protected under AI Influencer Method® rights

- Your model with celebrities (AI composites)
- Your model in different outfits
- Your model in different moods

- All Instagram content can be reused across accounts
- Expected result: around 20% subscriber increase
- Do not overinvest time — TikTok supports, Instagram drives

LESSON 5: TWITTER/X GROWTH STRATEGY

X is not a sales page. It is a discovery environment. Its purpose is to turn strangers into profile visitors and profile visitors into fans. Your growth on Twitter comes from being seen in other people's conversations, not from broadcasting your own content. This is the opposite of Instagram.

A user decides very quickly whether an account feels real or fake, safe or risky, interesting or boring. If the account looks spammy, aggressive, or sexual too fast, the user scrolls away. X is the public stage. Fanvue is the private room.

Profile Setup: Visual First Impression

The profile picture and header are the first emotional signal. They decide whether the account looks human or artificial.

Profile Picture Rules

- Clearly show the face
- Natural light, no heavy filters
- No extreme sexual pose
- Must match the persona

Header/Banner Rules

- Believable place (bedroom, couch, mirror, hotel)
- Casual and personal pose, not staged
- Lifestyle or aesthetic image of your persona

Bio: Identity and Emotional Hook

The bio should sound like a person, not a business. Personality creates desire, not features.

Bio Must Answer

- Who are you
- What happens here
- Why should I follow

Bio Structure

- First line: mood or personality
- Second line: type of content
- Third line: emotional invitation

GOOD EXAMPLE:

Bio: 'Late nights and quiet trouble. I share little moments and things I like here. Stay with me.'

BAD EXAMPLE:

Bio: 'NSFW model. Link below'

- Pinned tweet: your best-performing or most engaging post
- No links in bio during warmup

All materials are strictly protected under AI Influencer Method® rights

CORE RULE

The goal is not to sell. The goal is to be seen. The fan should feel curious, not pressured. A good X account feels like a real person inside public conversations, not like an advertisement.

Persona Matching

- Soft persona = warm and approachable
- Luxury persona = calm and confident
- Playful persona = expressive and chaotic

GOOD EXAMPLE:

Natural selfies, lifestyle backgrounds, soft teasing poses

BAD EXAMPLE:

Oversexualized images, text-only banners, logos instead of photos

Reply-Based Growth Engine

Replies are the main growth engine on X. Most followers come from being visible under large posts, not from your own tweets. Replies must feel like conversation, not promotion.

Reply Rules

- Start lowercase
- Under 15 words
- One emoji maximum
- No links, no insults, no copy-paste
- Reply 10-20 times per day to build visibility
- Every reply is seen by that account's followers
- Goal: make people click on your profile from your reply

GOOD EXAMPLE:

nah that's wild
i would've done the same
this feels illegal

Reply Pools — Where to Reply

- Pool A: Viral posts — highest visibility, most competition
- Pool B: Niche creators — targeted audience, less competition
- Pool C: Small active posts — intimate, high engagement rate

The account should reply under posts where your target audience already reads. Over time, X builds a personality file for the account and shows it to similar users.

All materials are strictly protected under AI Influencer Method® rights

BAD EXAMPLE:

buy my content
check my bio

Target Audience

The main audience is men with spending power, usually age 40 and above. This demographic spends more per subscriber than younger audiences.

They Are Interested In

- Business and entrepreneurship
- Luxury goods and lifestyle
- Cars and travel
- Women and comfort lifestyle

They do not use hashtags. They read replies under big pages. Target accounts and conversations that this audience follows.

Post Content Strategy

Posts build familiarity and curiosity, not satisfaction. The best performing style is semi-NSFW: clean image, natural light, short human caption. Sexual tension without porn.

Post Content Should Include

- Clothed selfies and mirror photos
- Outfit shots and casual bedroom/couch photos
- Short native videos or gifs
- Captions: 'Long day today', 'Would you like this outfit', 'Late again'

Posts Should Avoid

- Full nudity or pornographic actions
- Explicit angles or toy play
- Promotional captions — keep them casual and emotional

Twitter/X Warmup: Day-by-Day Protocol

Days 1-3

- 1 text post per day
- 10 to 20 likes
- 5 replies
- No adult content
- No images yet

Days 8-14

- 2 to 3 posts per day
- 20 replies per day
- One short thread
- Increase posting and add images to tweets
- After 14 days: full posting schedule, add link in bio

All materials are strictly protected under AI Influencer Method® rights

> **HEALTH CHECK — MANDATORY**
> Account health must be checked using:
> https://shadowban.yuzurisa.com
> Warm up continues until ALL indicators are green.
> Only green accounts are ready for real posting.
> If your replies stop getting likes, you may be shadowbanned. Reduce activity for 48 hours and resume slowly.

Days 4-7

- 1 to 2 SFW posts per day
- 30 likes per day
- 10 replies per day
- Start mixing text and images

Safety, Account Health & Premium

Never Do This

- Spam links in replies or posts
- Copy-paste the same reply across posts
- Use mass bots or automation
- Tag many people in posts
- Use many hashtags

Always Do This

- Enable 2FA on every account
- Use the same device daily
- Mark media as sensitive if NSFW
- Post and reply at natural speed
- Each account: one device, one IP

Premium & Premium Plus

Premium dramatically increases reply visibility and ranking. It is not optional for serious operators on Twitter/X — it is a growth multiplier. Only activate after the account shows green status on the shadowban checker and has stable reach. The purpose is not status — the purpose is reach. Premium helps your replies appear higher under big posts, significantly increasing profile clicks and followers. The investment pays for itself quickly through increased discovery.

Content Progression Ladder

- → Soft public content builds curiosity
- → Stronger posts build desire
- → Fanvue fulfills fantasy

> **GOOD EXAMPLE:**
> *Clothed selfie → Teasing outfit photo → Fanvue nude video*
> *Each layer must leave something unfinished.*

Visual Consistency

All materials are strictly protected under AI Influencer Method® rights

- Backgrounds, lighting, camera angles, clothing style must be similar
- Sudden changes reduce realism

> **THE CHAIN**
>
> Realism builds trust. Trust creates spending. All content must look like it comes from the same person.

All materials are strictly protected under AI Influencer Method® rights

END SUMMARY

- Instagram is the primary platform — Reels drive discovery, Stories drive engagement, never upload raw AI images
- Threads manufactures demand that feeds directly into Instagram — use validation bait and reply hijacking
- Reddit is a niche amplifier — 7-day warmup, karma farming, blend in before posting, always leave desire unfinished
- TikTok is secondary reach — 9-day warmup, only safe content, carousel format is safest, max 3 accounts per device
- Twitter/X grows through replies under big posts — target affluent men 40+, check shadowban status regularly
- Coordinate content across platforms — same persona, different formats, never same image same day
- Instagram always gets your best content first — all other platforms recycle with delays
- Every platform follows the content progression ladder: curiosity on social, desire building, Fanvue fulfillment
