LESSON 4: TIKTOK GROWTH STRATEGY

TikTok is a secondary traffic source. Instagram remains the main platform. TikTok converts worse than Instagram — estimated 5 to 10 times worse in CVR. Its value is not volume. Its value is extra reach when combined with other organic marketing. TikTok should support the system, not replace it.

TikTok Exists To

- Recycle content from Instagram
- Generate extra views and attention
- Capture additional audience that is not on Instagram
- Add approximately 20% more subscribers to overall funnel

Platform Risk: TikTok vs Instagram

TikTok is stricter than Instagram. Content moderation is heavier. Accounts are reviewed faster. Shadow limits happen more easily. What works on Instagram can get limited on TikTok.

CORE RULE

TikTok is leverage. Not focus. Not dependency. Do not overinvest time. Instagram drives the system — TikTok supports it.

What TikTok Rewards

- Accounts that look human and act slowly
- Content that stays within platform comfort zones
- Consistent posting schedule over time
- High watch time and completion rate on videos

SAFETY RULE

If content feels risky, do not post it on TikTok. Safe posting beats frequent posting. One strike on TikTok can shadow your account for weeks.

Account Setup: First Signals

New TikTok accounts must start empty. Early behavior determines trust. Follow this exactly.

When Creating a New Account

- Do not add username
- Do not add bio
- Do not add profile picture
- Close the app for 20 minutes after creation
- Then browse FYP for 30-60 minutes
- No likes, no posts on Day 1

Profile Setup (Day 5)

- Username: human, simple, no spam patterns
- Profile picture: unique per account, non-explicit
- Bio: typed manually, never copy-pasted, neutral and casual
- Each account must look like a different person

Multi-Account Safety

- Maximum 3 accounts per device
- Linked accounts increase ban risk
- Each account must have unique username, profile picture, and bio
- Never open the same link on multiple accounts

CRITICAL RULE

Never open the same link on multiple TikTok accounts. This links them together and increases ban risk for all accounts.
