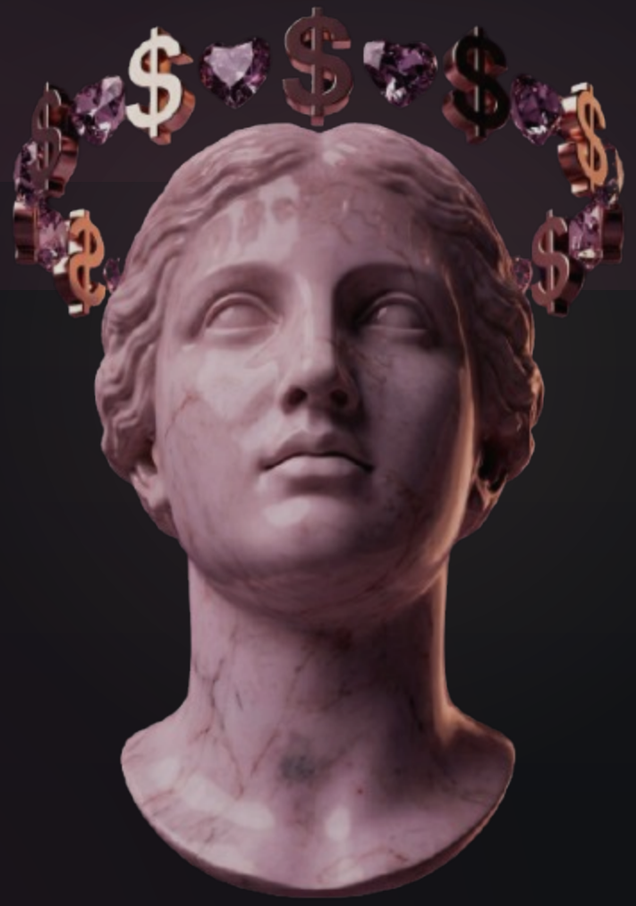
Funnel Psychology & Overview

Learn How to Turn Social Media Followers into Paying Fans

AI INFLUENCER METHOD



LESSON 1: FUNNEL PSYCHOLOGY & OVERVIEW

Followers are not customers. They are potential customers sitting at the top of a funnel. The funnel is the system that takes someone from 'I saw a Reel' to 'I just paid $15/month for a subscription.' Without this system, followers are just a number on your profile. The endpoint is Fanvue. Every other platform exists to support that conversion.

Instagram is not a selling platform. Instagram is a distribution engine. The mistake beginners make is attempting to convert users too early, too directly, or too aggressively without warming intent. This ecosystem uses a Hard Gate Funnel. No other routing structures are permitted.

The Hard Gate Funnel

A Hard Gate Funnel means every fan must pass through defined stages before reaching the monetization endpoint. There are no shortcuts, no alternative paths, and no direct selling on social media.

Approved Traffic Paths Only

- → Instagram → Link in Bio → Fanvue
- → Instagram → Link in Bio → Free Telegram → Fanvue
- → Instagram → Link in Bio → Free Telegram → Link in Bio → Fanvue

Every step of this funnel must be intentional. If any step is weak, the whole thing leaks. Most people lose fans between Trust and Desire because they try to sell too early.

HOW IT WORKS

Instagram builds desire.
Telegram builds urgency.
Fanvue captures revenue.

Purpose of This Funnel

- Capture attention
- Reduce friction
- Delay commitment
- Increase urgency
- Force monetization at the correct endpoint

Funnel Psychology

- People don't pay for content — they pay for connection
- The feeling of being 'close' to someone drives subscriptions
- Free content must tease but never fully satisfy
- The gap between free and paid must feel exciting, not frustrating
- Emotional framing always outperforms hard selling

CORE PRINCIPLE

You are not selling content. You are selling the feeling of a relationship. Every decision you make should build emotional proximity, not advertise a product.

Funnel Aggression vs Compliance

This funnel is designed to be aggressive. Aggression without structure leads to bans. Structure allows aggression to scale.
