AI INFLUENCER METHOD

# LESSON 1: WHAT IS THE AI INFLUENCER METHOD

The AI Influencer Method is a system for building and monetizing social media pages using AI-generated personas. These personas look, act, and engage like real influencers but are entirely created and managed through artificial intelligence tools.

This is not about catfishing or deception. This is a business model. The audience knows they are interacting with a curated persona. The value they receive is entertainment, attention, and content. You are building a brand, not pretending to be a real person.

### What You Will Learn

- How to create an AI influencer from scratch
- Which platforms to use and why
- How to grow from zero to monetization
- The exact content pipeline that works
- How to scale to multiple pages

### What This Is NOT

- A get-rich-quick scheme
- A passive income fantasy
- A one-click automation tool
- Something that works without effort

**MINDSET**

This is a real business. Treat it like one. The people who fail are the ones who skip steps, rush the process, or expect results without work.
