INTRO: THE ROLE OF REDDIT

Reddit is not the optimal traffic source for Fanvue or AI models. It is slow, strict, and heavily moderated. Most subreddits do not allow promotion and remove content quickly.

However, Reddit can be extremely powerful when a post goes viral inside the correct niche subreddit. One viral post inside the right subreddit can generate large traffic in a short time.

Reddit does not reward creators. It rewards relevance inside specific communities. The purpose of Reddit is not mass exposure. The purpose is niche exposure.

But only if the account looks real, trusted, and natural. Reddit works best as an opportunistic traffic source. Not as a main platform. But as a multiplier when a post hits the right audience.

A good Reddit account does not look like a model account. It looks like a normal user who belongs to a niche. The fan should feel like they discovered you inside their own community, not that you came to advertise.
