PLATFORM ROLES & TRAFFIC LOGIC

You are not "growing on two platforms". You are running one system with two tools.

Threads — Used To

- Trigger comments
- Start conversations
- Test narratives
- Send people to your IG profile

Threads posts should make someone think: "Who is this girl?"

Instagram — Used To

- Visually lock the persona
- Build trust
- Convert attention into clicks and money

Instagram posts should make someone think: "I've seen her before — she's real."

END SUMMARY

- Threads manufactures demand first, then Instagram amplifies it
- The warmup phase (21-28 days) is mandatory and boring on purpose
- Threads posts should force comments, arguments, and profile visits
- Reels launch only after Threads proves engagement is stable
- Never upload raw AI images — always edit for realism
- Geo targeting prioritizes USA/English-speaking audiences
- Patience beats aggression — this strategy fails when you quit
- Treat every post as data — repeat what works, drop what does not
