FOREWORD: WHAT THIS SYSTEM SOLVES

Most people fail because they post too early, post too much, and post without signals. Instagram does not push new accounts because content is "good". It pushes content when behavior looks human, consistent, and socially validated.

Threads gives new pages reach without history. Instagram rewards pages that already look wanted. This SOP uses Threads to manufacture demand first, then uses Instagram to amplify it.

END SUMMARY

- Threads manufactures demand first, then Instagram amplifies it
- The warmup phase (21-28 days) is mandatory and boring on purpose
- Threads posts should force comments, arguments, and profile visits
- Reels launch only after Threads proves engagement is stable
- Never upload raw AI images — always edit for realism
- Geo targeting prioritizes USA/English-speaking audiences
- Patience beats aggression — this strategy fails when you quit
- Treat every post as data — repeat what works, drop what does not
