PLATFORM RISK: TIKTOK VS INSTAGRAM

TikTok is stricter than Instagram. Content moderation is heavier. Accounts are reviewed faster. Shadow limits happen more easily.

Because of this: only very safe content should be posted. TikTok is not the place to push boundaries. What works on Instagram can get limited on TikTok.

TikTok Rewards Accounts That

- Look human
- Act slowly
- Stay within platform comfort zones

> **SAFETY RULE**
>
> If content feels risky, do not post it on TikTok. Safe posting beats frequent posting.

END SUMMARY

- TikTok is stricter than Instagram — only safe content should be posted
- Warm up is mandatory — if rushed, accounts die
- If safe, accounts survive and generate extra reach
- TikTok works only when warm up is completed and behavior looks human
- Accounts must be separated — maximum 3 per device
- Risk must be minimized at all times
- TikTok is leverage, not focus, not dependency
- Instagram drives the system — TikTok supports it
