FUNNEL AGGRESSION & COMPLIANCE

This funnel is designed to be aggressive. Aggression without structure leads to bans. Structure allows aggression to scale.

Aggressive Elements

- Frequent CTAs
- Repeated Fanvue exposure
- Emotional and sexual framing

Compliance Guardrails

- Instagram remains compliant
- Explicit payoff is exclusive to Fanvue
- Telegram bridges the gap

END SUMMARY

- Instagram is a distribution engine, not a selling platform
- The funnel removes emotion, guesswork, and impatience from monetization
- Telegram sharpens demand for Fanvue — it does not replace it
- The funnel lowers friction at every step to capture hesitant users
- Links are placed only where they belong, only when the account is ready
- Content escalates in the correct order: free, teasing, exclusive
- When followed correctly, the funnel becomes self-sustaining
- This is not a growth trick — it is a repeatable conversion system
