MODULE 4: SFW VIDEO CREATION OVERVIEW

Learn Motion Control with Kling and How to Generate Video Prompts

What You'll Learn

- Lesson 1: Why Video Changes Everything
- Lesson 2: Writing Video Prompts for Kling
- Lesson 3: Editing Videos & Adding Audio
- Lesson 4: Exporting & Platform Optimization

Key Takeaways

- Video content gets 3-4x more reach than images — it should be your #1 growth priority
- Kling AI turns static images into realistic video clips with motion, expressions, and camera movement
- Always test prompts in Standard Mode before committing Professional Mode credits — saves 30-40% of costs
- Keep video prompts simple — one motion at a time produces the most realistic results
- Edit clips together using CapCut (free) — combine 3-5 short clips with transitions and trending audio
- The 15-second Reel formula: Hook → Motion → Cut → Audio Peak → End
- Export in 9:16 at 1080x1920 for Reels/TikTok, always MP4, add trending audio before posting
- Batch video generation and editing sessions weekly — keep a backlog of 7-10 finished clips ready to post
