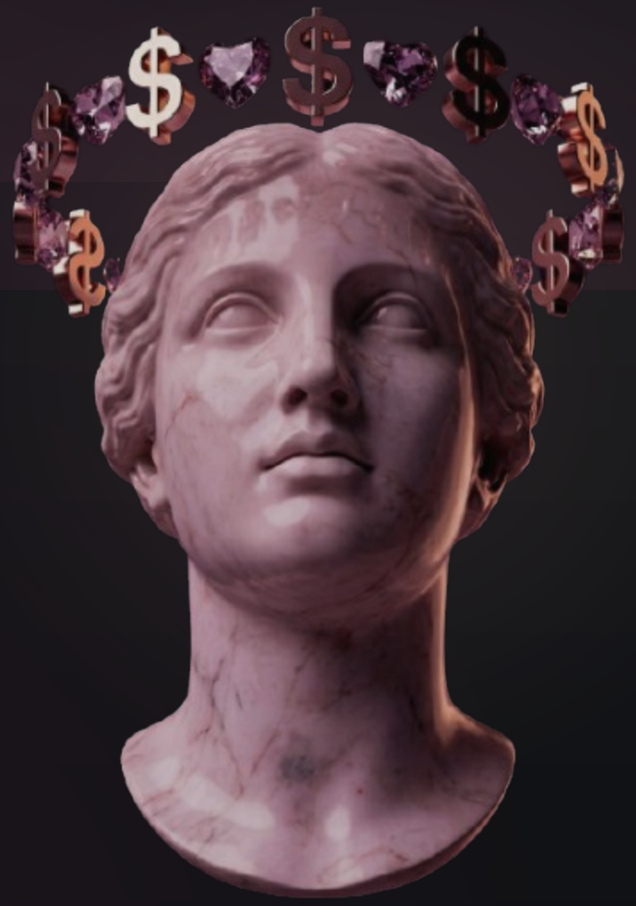
MODULE 2
LESSON 4

Building Your Content Library

Learn How to Generate Your Base Model Realistically and Efficiently

AI INFLUENCER METHOD



LESSON 4: BUILDING YOUR CONTENT LIBRARY

You should never be scrambling for content. Before you post anything publicly, build a library of at least 30-50 images. This gives you a buffer and lets you plan your content calendar without pressure. Running out of content mid-warmup kills momentum and consistency.

All materials are strictly protected under AI Influencer Method® rights

Batch Generation Strategy

Dedicate specific sessions to content generation rather than creating images one at a time. A focused session with Seedream 4.5 and Nano Banana 2 should produce 10-20 usable images.

- Set aside 2-3 dedicated sessions per week for content generation
- Generate 10-20 images per session with varied prompts
- Use Seedream 4.5 for close-ups and portraits, Nano Banana 2 for full-body and lifestyle
- Change outfits, settings, and poses across the batch
- Sort images into categories immediately after generation
- Keep a 'rejected' folder — you may salvage these later with editing
- Target: build a 2-week content buffer before launching any account

Folder Structure

Organization saves time and prevents panic. Set up this folder structure before you start generating.

- /PersonaName/Reference/ — Your seed images and reference photos
- /PersonaName/Library/Headshots/ — Profile photos and close-ups
- /PersonaName/Library/Casual/ — Lifestyle and everyday content
- /PersonaName/Library/Glam/ — Dressed up and polished shots
- /PersonaName/Library/Stories/ — Casual, raw-feeling content for Stories
- /PersonaName/Rejected/ — Images that did not pass quality check
- /PersonaName/Posted/ — Archive of already-posted content

IMAGE PLACEHOLDER

Content Categories to Build

- Profile photos and headshots: 3-5 (your best face shots)
- Casual lifestyle shots: 10-15 (everyday settings, natural poses)
- Glamour or dressed-up shots: 5-10 (polished, curated content)
- Close-up selfie-style images: 5-10 (intimate, personal-feeling)
- Story-ready casual content: 10+ (raw, in-the-moment aesthetic)

Prompt Templates for Each Category

Save these prompt templates and swap out the details for each generation. This ensures consistent quality while creating variety.

GOOD EXAMPLE:

Headshot: 'Close-up portrait, natural light from window, soft smile, looking at camera, photorealistic, iPhone quality'

Casual: 'Sitting on couch in oversized hoodie, warm indoor lighting, relaxed pose, candid feel, photorealistic'

Glam: 'Black dress, mirror selfie, evening lighting, confident pose, photorealistic'

Gym: 'Workout outfit, gym mirror selfie, overhead fluorescent lighting, post-workout glow, candid'

Story: 'Taking selfie in car, natural daylight, casual expression, slightly messy hair, iPhone selfie style'

IMAGE PLACEHOLDER

Grid of example content library showing variety across all 5 categories — headshots, casual, glam, selfie, stories. Show how the face remains consistent while settings and outfits vary.

MINIMUM BEFORE LAUNCH

Do NOT launch any social media account until you have at least 30 quality images saved and sorted across multiple categories. Running out of content mid-warmup kills momentum and consistency. Your content library is your business inventory — stock it before you open the store.
